## PAVER CARE

### PAVING ADVICE

For in depth paving advice, tips and hints please visit our DIY centre at [adbrimasonry.com.au/diy](http://adbrimasonry.com.au/diy) or download the CMAA Paving Maintenance Guide from [cmaa.com.au](http://cmaa.com.au).

### CLEANING

All pavers will require cleaning from time to time. Oil, rust, efflorescence and other stains can detract from the appearance of the paver. Proprietary cleaning products for concrete pavers (and retaining walls) are readily available.

### MAINTENANCE

Pavers will require some ongoing maintenance to keep in a pristine condition. Dirt, dust and leaves should regularly be removed whilst any weed growth should be sprayed and controlled.

### SEALING

If the pavers are to be used around a swimming pool, or exposed to salt water then Adbri Masonry strongly recommend sealing your paving. We recommend you do this for aesthetic and maintenance purposes, not for structural reasons.
